

Idder AIT EL MOUDEN

Software Engineer

SUMMARY

Creative, detail-oriented software engineer with a deep interest in AI. Experienced in translating Figma designs into responsive, scalable web applications using Next.js and React. Proven track record in writing clean, maintainable code and delivering functional, high-quality user interfaces.

WORK EXPERIENCE

Software Engineer at 100devs, Los Angeles, CA

October 2024 — Present (Remote)

- Built and maintained over 20 modular front-end components, reducing development time for new features by 35% and enabling quick adaptability for future updates.
- Collaborated with a team to develop modern, responsive web applications, adhering to front-end best practices to enhance maintainability and scalability.
- Spearheaded mobile-first design improvements, reducing load times by 40% and boosting user engagement by 25% across mobile and desktop devices.
- Applied agile methodologies, including SCRUM, to manage projects effectively and ensure timely delivery of high-quality solutions.

Full-Stack Developer at Simplon Maghreb, Casablanca, MA

March 2024 — October 2024 (Hybrid)

- Translated complex Figma designs into pixel-perfect, responsive interfaces using Next.js and React, achieving a 30% reduction in development time with reusable front-end components.
- Engineered 15+ reusable front-end components, cutting development time by 30% and simplifying future updates for 5+ projects.
- Enhanced performance through lazy loading, code splitting, and asset minification, improving page load speeds by 40%.
- Leveraged creative problem-solving skills to tackle complex technical challenges, delivering robust, reliable solutions in a fast-paced environment.
- Managed sprints effectively, successfully delivering the project on time with 100% team satisfaction.

Front-end Web Developer (Freelancing)

July 2022 — March 2024

- Built 20+ responsive front-end projects with HTML, CSS, and JavaScript (ES6+), ensuring cross-browser compatibility and achieving a 98% client satisfaction rating.
- Improved load times by 30% through optimization tools (Webpack, Babel), increasing maintainability and development efficiency by 20%.
- Maintained a high degree of precision in implementing UI designs, ensuring design consistency and interactive integrity across projects.
- Delivered complex front-end projects focused on user interface and usability, refining visual and functional aspects to create engaging user experiences.

SKILLS

Languages & Frameworks :

C#, JavaScript, TypeScript, React
Next.js, Node.js, Express.js

Databases:

MongoDB, PostgreSQL, MySQL

Tools & Technologies:

Git, GitHub, Docker, Microservice
REST APIs

Development Practices:

Agile (SCRUM),
Test-Driven Development (TDD),
Web Accessibility

LANGUAGES

Arabic

English

French

EDUCATION

Lycée El Fadila

Baccalauat - Physical Sciences
